

## Background

As adult learners, nurses have expressed the wish to be able to self-select topics of relevance, and to be able to learn at their own pace and time.

This project introducing the use of Voice Annotated Presentation (VAP) which consists of slides with voice-overs, in the form of a video. The video will be uploaded to SingHealth E-learning platform where nurses can access and obtain learning resources using mobiles, tablets, laptops, or desktops at any time.

## Aims

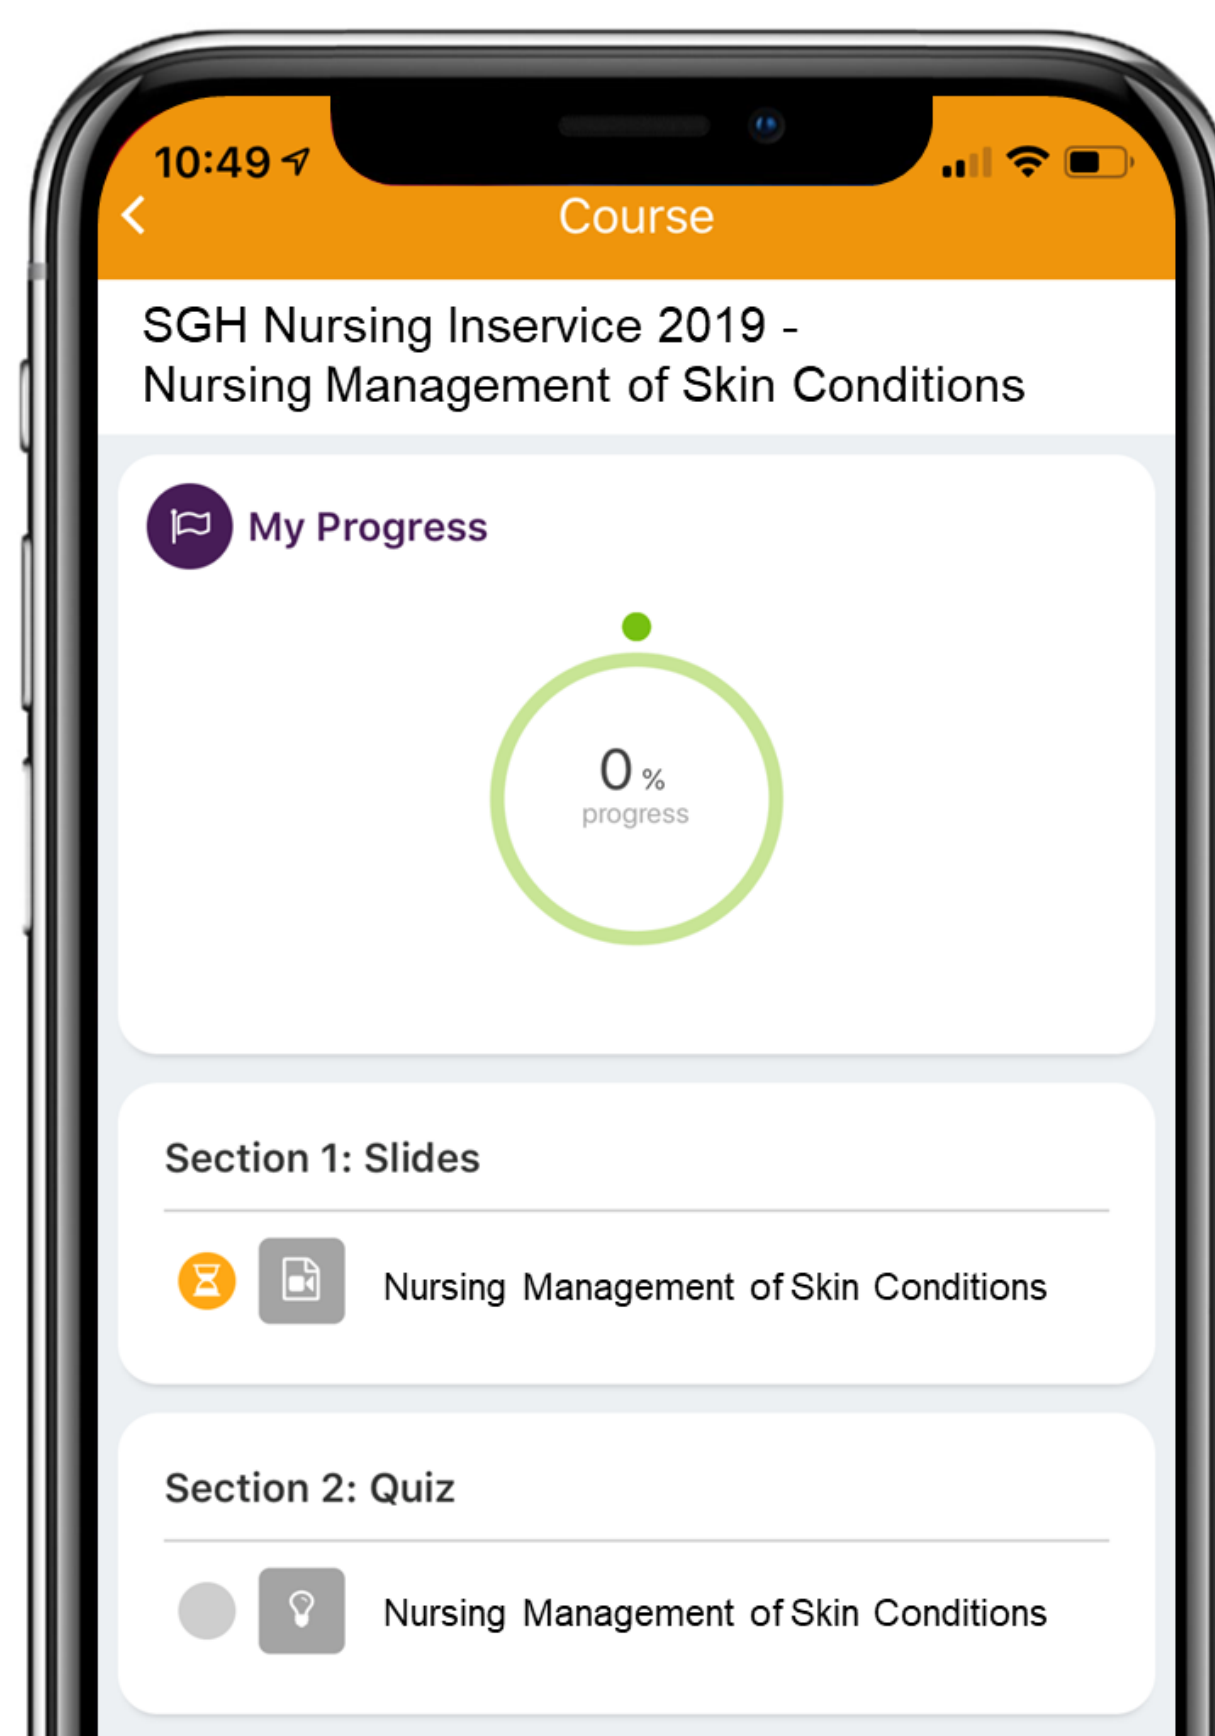

- Nurses able to self-select courses of relevance or interest.
- Learn effectively that fits with their lifestyle, and learning journey.
- Maintain competency to provide safe care.
- Keep pace on the advances and innovations in healthcare.

## Methodology

 Self-enroll to courses available in the E-learning platform

 Complete it within the time frame given by watching full video and get 100% for the quiz test

 Course instructor will pull out data report to measure its responses from nurses

Certificate of Completion and Continuing Professional Education (CPE) point will be awarded to nurses who completed the course.

## Results

**Comparison between Classroom Versus E-Learning**  
Period: Jan-May 19

## Conclusion

**Benefits of self-enroll E-learning includes:**  
Nurses

- Able to learn with ease at their convenience

Instructor

- Quick and easy to pull out data.
- Measure effectiveness and responses from nurses
