Making GREEN our way of Life in TTSH

Environmental awareness in Singapore is growing, and like many organisations, TTSH recognises the importance of making sustainable decisions. The GO GREEN @ TTSH was thus borne to inculcate a green culture at the workplace, and to obtain BCA Green Mark Award (Certified) for Office Interior for both Annex 1 and Annex 2 buildings.

Earvin's Great GREEN leap in TTSH

May 2015

- Going Green with Singapore Kindness Movement (SKM)
- TTSH Inaugural Pick The Litter Campaign Walkathon
- TTSH Inaugural Cleaner's Appreciation Day

TELL US WHAT YOU THINK

Refresh our eye - Turn into the eye

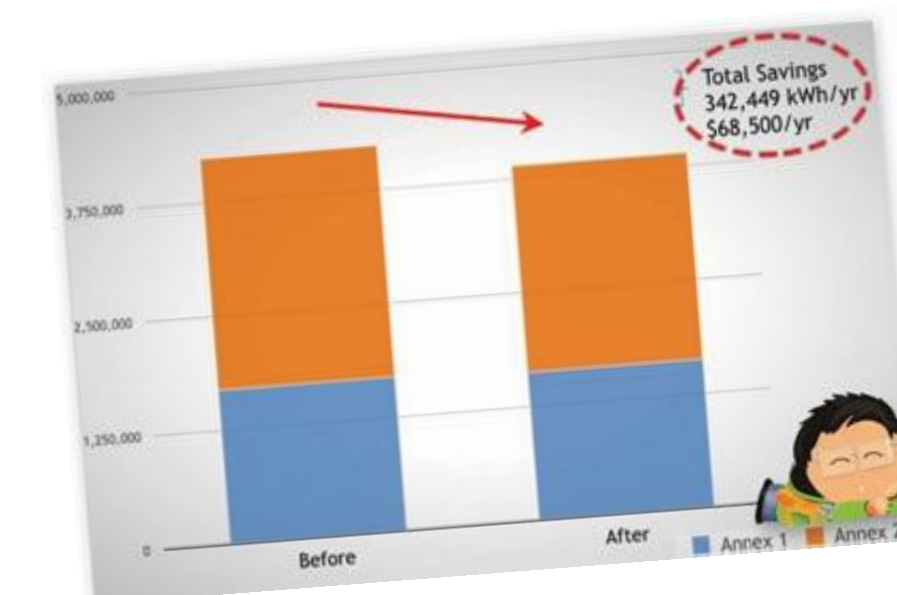

Go-Green Campaign EDMs

- Birth of "Earvin" the Go Green Mascot with a mascot naming staff competition
- "Green communications" sent to - weekly emailers, posters, "Green Days" and quizzes
- Print Management Solutions @ Annex 2 for smart and responsible printing where printouts are released by scanning the staff access card, or key in their ADID login; Duplex printing was also programmed as the default setting for all printers
- New facelift for Recycling Bins @ Annex 1

Jul - Dec 2015

- Annex 1 and 2 certified BCA Green Mark Office Interior by BCA on 13 July 2015!
- Utilities savings from Jul 2014 to Jul 2015 amount to \$68,500 (8% reduction in energy consumption), enough to power a typical 3-room HDB flat for some 90 over years!
- Recycling rate for Annex 1 and 2 increased by an overall 24% for plastic and 4% for paper from a 3-month measurement study done from Jan-Mar 2015!

- Electronic-Waste Recycling bin was added in Sep 15
- Sharing of staff pledges and personal stories of how they had gone Green, eg. carpooling in Nov 15 and "Bring own container" in Dec 15.

Mar - Apr 2015

- BCA Green Mark Pre-Assessment conducted for Annex 1
- BCA Green Mark Assessment conducted for Annex 1 & 2

Nov - Dec 2014

- New facelift for Recycling Bins @ Annex 2
- BCA Green Mark Pre-Assessment conducted for Annex 2
- Conduct measurement for air quality, lighting and sound level

Jul - Aug 2014

- Go-Green Committee was set up
- Daily security patrol at Annex 1 & 2 to ensure lights and air-conditioning are switched off after office hours
- Pre-set air-conditioning temperature at 24°C to 30°C range and auto-switch off at 7pm and 9pm daily
- Introduction of air fans and exhausts for optimal energy efficiency
- De-lamping lights to reduce energy consumption
