

## About NEU Industries

NEU Industries Pte. Ltd. is established in Singapore since April 2008, distributing medical and pharmaceutical products to hospitals, nursing homes and pharmaceutical manufacturing companies. NEU Industries started with servicing and repairing medical equipment, gaining trusts from customers and expanded our business scope in supplying wide range of medical products and solutions. Our products include chemicals, patient trolleys, medical machines, surgical instruments, medical pulps consumables, instrument tracking software, rehabilitation exercise games and fall prevention and detection devices.

## Company

NEU Industries contributes to healthcare with safer, cleaner and better medical products by reducing infections and working closely with stakeholders to customise products and solutions for healthcare applications.

Headquartered in Singapore and having regional offices in Thailand and Malaysia, NEU Industries is poised to bring forth innovative products and solutions closer to the hospitals and nursing homes.

## Coverage

Our focus area is to support hospitals and nursing homes in Singapore, Thailand and Malaysia with our range of products and solutions. We have on-going contracts extended to all clusters of Singapore public hospitals and nursing homes, supplying macerators and medical pulps to the patient wards and critical & diagnostic departments. We also cover all dialysis centres with National Kidney Foundations in Singapore with our clinical recliner chairs.

## Exhibitions

We participate in at least two healthcare exhibitions every year targeting at hospitals and nursing homes customers and key opinion leaders in the healthcare industry.

## Product Trainings

We interact with users and stakeholders to understand their operational workflow, so as to tailor appropriate product trainings to equip them with the necessary concept and techniques to operate and perform first level maintenance of the products.

Our product training caters to nurses, clinicians, technicians, engineers, healthcare assistance from various departments.

## Service Maintenance

We provide 24/7 service and maintenance support for our products, software and solution with response time according to hospital's operation needs.
